

Name _____

Squaring Numbers

Find the Square of even numbers.

(The square of an even number is always even)

1) $126^2 = \underline{15,876}$

2) $48^2 = \underline{2,304}$

3) $200^2 = \underline{40,000}$

4) $362^2 = \underline{131,044}$

5) $74^2 = \underline{5,476}$

6) $500^2 = \underline{250,000}$

7) $288^2 = \underline{82,944}$

8) $150^2 = \underline{22,500}$

9) $82^2 = \underline{6,724}$

10) $324^2 = \underline{104,976}$

11) $90^2 = \underline{8,100}$

12) $64^2 = \underline{4,096}$

13) $142^2 = \underline{20,164}$

14) $256^2 = \underline{65,536}$

15) $84^2 = \underline{7,056}$

16) $624^2 = \underline{389,376}$

17) $200^2 = \underline{40,000}$

18) $92^2 = \underline{8,464}$

19) $420^2 = \underline{176,400}$

20) $98^2 = \underline{9,604}$

21) $300^2 = \underline{90,000}$

22) $486^2 = \underline{236,196}$

23) $36^2 = \underline{1,296}$

24) $178^2 = \underline{31,684}$
