

Name _____

Braces, Brackets, and Parentheses

Simplify the expressions inside the brackets,
and then subtract the results from each other.

1) $[6 + (3 \times 2)] - [3 + (4 \div 2)] = \underline{\hspace{2cm} 7 \hspace{2cm}}$

2) $[36 \div (5 - 3)] - [2 \times (3 + 1)] = \underline{\hspace{2cm} 10 \hspace{2cm}}$

3) $[4 + (8 \div 2)] - [3 \times (5 - 3)] = \underline{\hspace{2cm} 2 \hspace{2cm}}$

4) $[60 \div (6 - 1)] - [3 + (4 \times 2)] = \underline{\hspace{2cm} 1 \hspace{2cm}}$

5) $[8 + (4 \div 2)] - [5 - (3 \times 2)] = \underline{\hspace{2cm} 11 \hspace{2cm}}$

6) $[40 \div (4 - 2)] - [6 + (2 \times 3)] = \underline{\hspace{2cm} 8 \hspace{2cm}}$

7) $[3 \times (9 \div 3)] - [8 \div (8 - 4)] = \underline{\hspace{2cm} 7 \hspace{2cm}}$

8) $[40 \div (10 - 6)] - [2 + (2 \times 3)] = \underline{\hspace{2cm} 2 \hspace{2cm}}$

9) $[8 + (8 \div 4)] - [5 - (2 \times 2)] = \underline{\hspace{2cm} 9 \hspace{2cm}}$

10) $[5 + (3 \times 3)] - [2 + (4 \div 2)] = \underline{\hspace{2cm} 10 \hspace{2cm}}$

11) $[8 \times (4 \div 2)] - [8 \div (5 - 1)] = \underline{\hspace{2cm} 14 \hspace{2cm}}$

12) $[6 + (9 \div 3)] - [4 - (6 \times 1)] = \underline{\hspace{2cm} 11 \hspace{2cm}}$

13) $[7 \times (8 - 6)] - [5 \div (2 + 3)] = \underline{\hspace{2cm} 13 \hspace{2cm}}$

14) $[20 \div (10 - 8)] - [6 - (3 + 1)] = \underline{\hspace{2cm} 8 \hspace{2cm}}$

15) $[5 + (2 \times 3)] - [8 \div (4 - 2)] = \underline{\hspace{2cm} 7 \hspace{2cm}}$
