

Name _____

PEMDAS

Solve for the missing number in each equation.

1) $7 + 2 \times \underline{6} = 19$

2) $5 \times \underline{5} - 4 = 21$

3) $10 - 3 \times \underline{3} = 1$

4) $8 + 4 \times \underline{6} = 32$

5) $12 + 6 \div \underline{3} = 14$

6) $(9 - \underline{2}) \times 2 = 14$

7) $20 - 3 \times \underline{3} = 11$

8) $(6 + 2) \times \underline{8} = 64$

9) $(12 - \underline{6}) \times 2 = 18$

10) $10 + 4 \times \underline{7} = 38$
