Class :

## Perimeter of Squares and Rectangles

Perimeter of square (P)  
 $= 4 \times \text{Side} = 4 \times a$

The formula for the perimeter of squares is  $P = 4 \times \text{side}$ . and The formula for the perimeter of rectangle  $p = 2(L + W)$ .

Perimeter of a Rectangle

Formula:

$$P = 2L + 2W$$

Find the perimeter of each square and rectangle.

1)

$$P = 12\text{yd}$$

2)

$$P = 32\text{yd}$$

3)

$$P = 16\text{yd}$$

4)

$$P = 20\text{yd}$$

5)

$$P = 32\text{yd}$$

6)

$$P = 16.0\text{yd}$$
