

Name :

Class :

Perimeter of Squares and Rectangles

Perimeter of square (P)
 $= 4 \times \text{Side} = 4 \times a$

The formula for the perimeter of squares is $P = 4 \times \text{side}$. and The formula for the perimeter of rectangle $p = 2(L + W)$.

Perimeter of a Rectangle

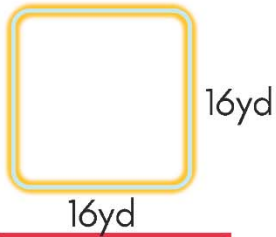

Formula:

$$P = 2L + 2W$$

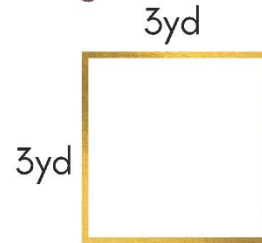

Find the perimeter of each square and rectangle.

1)

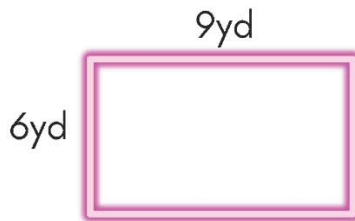

$$P = 64\text{yd}$$

2)

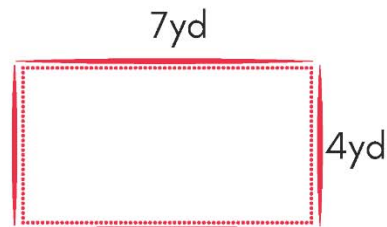

$$P = 12\text{yd}$$

3)

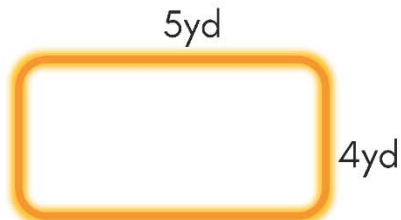

$$P = 30\text{yd}$$

4)

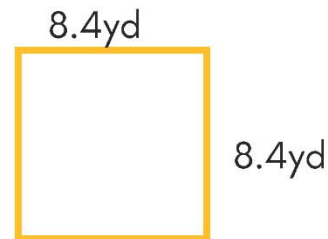

$$P = 22\text{yd}$$

5)

$$P = 18\text{yd}$$

6)

$$P = 33.6\text{yd}$$
