

## ANSWERS

# AREA OF QUADRILATERALS

Instructions: Find the area of the Quadrilaterals

a) Each side of the square is 14cm	Solution: $14 \text{ cm} * 14 \text{ cm} = 196\text{cm}^2$ Area= <input type="text" value="196cm2"/>
------------------------------------	--

b) The rectangle has the following base and height: <ul style="list-style-type: none"><li>• Base 11cm</li><li>• Height 15cm</li></ul>	Solution: $11 \text{ cm} * 15 \text{ cm} = 165\text{cm}^2$ Area= <input type="text" value="165cm2"/>
---	--

c) The rhombus has the following diagonals:  Major diagonal of 16m Minor diagonal of 13m	Solution: $16 \text{ m} * 13 \text{ m} = 208\text{m}^2 / 2 = 104\text{m}^2$ Area= <input type="text" value="104cm2"/>
