

Ranking Priorities Answer Key

Scenario 1: After-School Time

Sample Ranking

1. Do homework
2. Spend time with family
3. Play sports with your team
4. Work at your part-time job
5. Play video games

Sample Explanation

I ranked **homework first** because it's due tomorrow and helps me keep my grades up. **Family is second** because I don't always get as much time with them, and it's important for my relationships. **Sports is third** because practice matters but missing one day won't hurt too much. **The job is fourth** since I'm not scheduled today. **Video games are last** because I can always play later when I don't have responsibilities.

Scenario 2: Weekend Plans

Sample Ranking

1. Finish a school project due Monday
2. Go to a friend's birthday party
3. Clean your room and do chores
4. Practice your instrument or hobby
5. Relax and watch a movie

Sample Explanation

I chose **the school project first** because it has a deadline, and I don't want to be stressed on Sunday night. **The birthday party is second** because it's a special occasion, and I want to support my friend. **Chores are third** because my parents expect me to help at home, but they can wait until later in the day. **Practicing my instrument is fourth** because it's important but flexible. **Watching a movie is last** because it's just for fun and not a priority right now.
