

Name \_\_\_\_\_ **Multisyllabic Words**

# Multisyllabic Words

Divide a word that ends in -le into syllables right before the consonant-l-e pattern:

marble                  mar | ble

The exception to this rule is when the ck digraph appears before the le. Then you divide before the -le.

chuckle                chuck | le

**DIRECTIONS:** Divide each word into syllables. Write each syllable.

Word	Divide	Syllable 1	Syllable 2
apple	_____	_____	_____
cable	_____	_____	_____
cycle	_____	_____	_____
title	_____	_____	_____
uncle	_____	_____	_____
noble	_____	_____	_____
eagle	_____	_____	_____
ankle	_____	_____	_____
pickle	_____	_____	_____
